

## Infor 10x

### Get new capabilities with Infor 10x

Finding an edge for your business is far from easy. Progress is often of the one-small-step variety, rather than the giant leap that companies need to put some distance between themselves and the competition. It's easy to wonder sometimes—is settling for less becoming the new normal? Not at Infor™. With Infor 10x, the latest release of Infor's proven business applications, you can forget just getting by and start getting ahead.

### Change the way work is done

Think flexible and collaborative. Think beautiful, scalable, integrated, and mobile. Then start imagining all the things that Infor 10x will help you accomplish. With Infor10x, you'll:

- **Solve old problems in new ways.** With social collaboration technologies embedded into core business systems, you'll capture vital corporate knowledge, marry communications with business processes, and make collaboration the rule—not the exception.
- **Take your technology for granted.** With systems that are beautiful, familiar, and easy to use, you'll be able to deliver a consumer-inspired user experience that meets increasing employee expectations, reduces training times, and increases productivity.
- **Make sure out of office doesn't mean out of touch.** By putting information at employees' fingertips, you'll be able to monitor your business, perform key tasks, and keep things moving using the mobile device of your choice.
- **Have systems without borders.** With technology that turns siloed systems into synchronized ones and systems that work together seamlessly, you'll make integrating enterprise systems fast and easy, minimize the complexity of upgrades, and increase the value of existing technology investments.

- **Get software that talks back.** With exceptions and alerts delivered automatically, plus the ability to drill down into issues, you'll be able to take the necessary steps to resolve problems anytime, from anywhere.

### Solve old problems in new ways

Infor 10x delivers major advancements across all of Infor's core product lines, allowing companies like yours to maximize investments in existing technologies and take advantage of innovative new solutions—without complex integrations and endless implementations. You get access to innovative, forward-thinking solutions that can transform the way you work. These include:

- **Infor ION**, purpose-built middleware that makes integrating your enterprise systems, both Infor and non-Infor, fast and easy. You can eliminate operational silos, scale up or down to meet changing business needs, reduce the burden on IT by putting business process changes into the hands of power users, and achieve unparalleled operational efficiency.

- **Infor Ming.le**, a comprehensive platform for social collaboration, business process improvement, and contextual analytics. Incorporating the most innovative social media concepts into a business environment, Infor Ming.le lets you capture vital corporate knowledge and tie communications to business processes so you can work smarter and faster. From collaborating alongside core systems like ERP or financials to “following” people and objects, you’ll solve problems and get work done in ways you never thought possible.
- **Infor Analytics**, which lets you transform data into a competitive advantage. You get industry-specific analytics, robust reporting capabilities, personalized dashboards, and workflows and alerts—all accessible from your mobile device with changes synced automatically to your desktop.
- **Infor Motion**, technology that gives you access to systems and information anytime, anywhere and extends the capabilities of your core organizational systems. You can unlock the power of existing enterprise solutions by seamlessly integrating mobile capabilities with your Infor applications and get the ability to easily build and deploy custom mobile apps to meet your specific needs.
- **Infor Mongoose**, an application development framework that lets you easily design and deploy applications that enhance your core enterprise solution. No knowledge of complex source codes or programming languages is required. You’ll be able to create enhancements in a fraction of the time and with far less effort than is required with traditional development approaches.

Transform the way your employees work and put information at their fingertips with Infor 10x. You’ll simplify integrations between systems, get business software that’s beautiful and easy to use, and solve old problems in new ways.

## Meet change with confidence

A revolution has started in the world of business software. Rigid and cumbersome is giving way to agile, intelligent, and above all fast. You no longer have to sacrifice usability and convenience for the sake of functionality.

Infor 10x marries modern technologies with traditional applications, so you get the best of both worlds—solutions backed by decades of practical application and continually enhanced with the latest innovations. You get software that works the way you want, adapting and changing to meet whatever new challenges or opportunities come your way. You deserve nothing less.
